

Customer Information - Repair of Crane in Åhus

With reference to our customer information letters dated 25. January 2010 and 26. January 2010 we would like to update you on the current situation.

We are happy to announce that the port of Åhus succeeded in all its efforts to repair the crane and put it back to operations.

After a period of port calls with a very low loading and discharging productivity and several evasions to other ports such as Norrköping and Malmö, we will be able to return to normal operations according to our master schedule as from Friday, 12. February 2010.

For further questions please do not hesitate to contact our local colleagues.
