

Weather Report

Dear Customer,

Please find below our weather report / forecast for the next 24 and 48 hours:

Due to very strong winds both in the North Sea region and the Baltic Sea, we expect weather related delays over the upcoming weekend.

The vessels that are affected by the strong winds are the following:

- Elisabeth
- Freya
- Laura Ann
- Margareta B (Due to heavy winds the Port of Aarhus will remain closed).

The situation in the North-Sea is expected to improve by tomorrow afternoon with a steady decline of winds. However the same system is expected to move towards the Baltic region followed by heavy winds and high swell that will affect Southern Baltic Region and will remain unchanged until Monday.

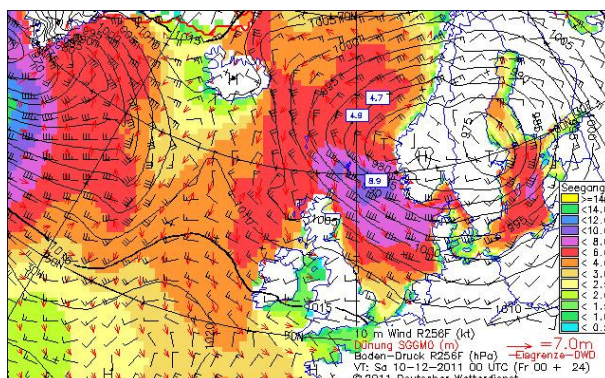

We will keep you posted if the system (N. Atlantic) might affect our vessels in the upcoming week.

For the latest vessel updates we kindly refer to our operational schedule which is published on our website: www.teamlines.de

For questions and further information please contact your local Team Lines office.

Best regards,
