

Customer Information – Customs Electronic Exit Procedure in Finland

Due to the changes in the EU customs codex, vessel operators are confronted with extended export documentation obligations. In the scope of the EU implementation regulation, first European countries start to claim respective documentation. One of the first countries officially starting to implement export procedures according to the new EU customs codex is Finland as from 03. May 2010.

Please note that in the scope of this implementation, Team Lines will encounter increased administrative efforts in order to safeguard the required export documentation in terms of the new exit declaration to the AREX-system.

In order to partly compensate the costs arising with respect to this new legislation, Team Lines is forced to implement a surcharge as follows:

**2 EUR per
FULL third-country-status export container from Finland
effective as from 03. May 2010**

For your guidance there will be neither a surcharge on empty containers nor on containers with customs status "C".

We hope for your kind understanding in taking this step and seek for your cooperation in fulfilling all our documentation obligation towards customs authorities.
