

Customer Information – New Terminal Facilities in Norrköping

Please be informed that the port of Norrköping decided to close down the old container handling facilities at the Öhmanterminalen.

Effective as from 01. March 2010 container vessels will be operated at the newly built container terminal at the Pampus area (Pampusterminalen). The first Team Lines call at the new facilities will be on 04. March 2010 with M/V Freya.

The Pampusterminalen is located a bit further out of the city, granting shorter ways for vessels in and out of the port as well as better access to the local motorway infrastructure.

Furthermore, the new terminal possesses two brand new gantry cranes and a fully automated gate which enables a higher terminal productivity and more efficient container handlings.

We are looking forward to a good co-operation with the terminal in Norrköping also in the future.
