

DELPHIS LAUNCHES PAN-EUROPEAN DOOR-DOOR NETWORK

Delphis is pleased to announce that its newly created subsidiary Delphis Logistics will start offering European door-door services as from the 1st of October 2009.

Delphis will offer 20, 40 and 45 feet container equipment to its customers, using Team Lines extensive maritime network and other intermodal transport possibilities.

Alexander Saverys, Managing Director of Delphis NV said about the concept : “Delphis is dedicated to regional container shipping and its three core markets : shipowning and chartering, quay-to-quay feeding and door-to-door intermodal transport. After an absence of 2 years during which our network was professionalised and developed, we are delighted to add this third door-door pillar to our business portfolio.”

Commenting on Delphis Logistics’ strong points, Soren Pedersen, Managing Director of Team Lines said : “In today’s challenging times, it’s all about lowest cost, high reliability and innovative systems. With a maritime network ranging from Iberia to the Baltic Sea, an integrated IT system, more than 13 owned local agencies throughout Europe and an operated fleet of 25 specialised feeder vessels (most of which are large 1.000+ TEU vessels), Delphis Logistics is poised to offer ultra-competitive services.”

Delphis was founded in March 2004 and is active in regional container shipping. It fully owns Europe’s leading feeder operator Team Lines and controls a fleet of 40 owned and chartered container vessels ranging from 500 to 2.500 TEU. Delphis’ main headquarters are in Antwerp, Hamburg and Hong Kong.
